## PROFESSIONAL SUMMARY

Full Stack Developer with around 4 years of experience building HRMS, CRM, property management, booking systems and business websites using PHP, Laravel, CodeIgniter, Yii and WordPress. Comfortable working across multiple CMS and frameworks in a fast-moving, multi-client environment from custom Laravel applications to WordPress/Elementor builds. Experienced with REST APIs, payment gateways, webhooks, role-based access, MySQL, JavaScript and third-party integrations. Hands-on with production deployment using cPanel, Plesk and Ubuntu/Linux, including DNS, SSL, hosting migrations, Cloudflare and Git. Also worked with Google Tag Manager, Meta Pixel, Microsoft Clarity and AI-assisted development tools for coding, debugging, research and image generation.

## CORE SKILLS

**Backend:** PHP, Laravel, CodeIgniter, Yii, Node.js, OOP, MVC, Authentication, Role based access control (RBAC)

**Frontend:** HTML5, CSS3, Bootstrap, JavaScript, jQuery, React.js, Next.js, GSAP

**CMS:** WordPress, Elementor, Shopify, Theme/Plugin Customization

**APIs & Integrations:** REST APIs, Webhooks, Cron Jobs, Stripe, Razorpay, PayU, Shiprocket, Shipway, SMS/OTP, WhatsApp API, Email Integrations

**Databases:** MySQL, MongoDB, Indexing, Query Optimization, Relationships, Transactions, Caching

**Deployment & Hosting:** cPanel, Plesk, Ubuntu/Linux, AWS (S3), DNS, SSL, Domain Transfer, Hosting Migration, Cloudflare

**Analytics & Tracking:** Google Tag Manager, Meta Pixel, Microsoft Clarity, Event/Conversion Tracking

**Tools:** Git, GitHub, Composer, PageSpeed Insights, GTmetrix

**SEO & Platforms:** Technical SEO, Google Business Profile, Google Merchant Center

**AI-Assisted Development:** Code Generation, Debugging, Technical Research, Image Generation

## PROFESSIONAL EXPERIENCE

### Full Stack Web Developer | Nexgeno Technology Pvt. Ltd.

Mumbai, India | Jan 2023 - Aug 2026

- **Backend applications:** Built and maintained CMS, HRMS, CRM and property management modules in Laravel, CodeIgniter and Yii.
- **Access and workflows:** Implemented roles, permissions, CRUD modules, MVC workflows and role-specific authentication.
- **Payments:** Integrated Stripe, Razorpay and PayU with webhook-based payment status updates.
- **APIs and automation:** Connected Shipway, location APIs and physical punching devices; used cron jobs for pricing, quotations and attendance processing.
- **Database performance:** Improved slow MySQL operations with indexes, join reviews, simpler queries and caching.
- **Client delivery:** Clarified requests with clients and senior team members, estimated work, completed fixes and supported deployment.
- **Frontend and CMS:** Delivered 10+ websites and improved page speed by up to 40% through minification, lazy loading, WebP and responsive fixes.
- **Mentoring:** Guided 2 interns through project tasks, code changes and implementation reviews.
- **Cross-functional support:** Stepped in on basic image edits with the design team and frontend UI fixes when those teams were stretched, keeping urgent client deliveries on schedule.
- **Process & coordination:** Tracked tasks and project handoffs using an internal Jira-style tool (MCRM) across a multi-project, multi-team setup.

## SELECTED PROJECTS

---

### Properties CRM | Laravel 11

- Built role-based access for administrators, managers, tenants, landlords, estate agents, staff and users. Added parent and subuser management, user CRUD, seed data and role-specific authentication redirects.

### SIE India | Slot Booking System

- Developed an end-to-end booking system with admin dashboard, date/time slots, booking capacity and database-driven availability.
- Added AJAX availability updates, duplicate-booking prevention and automatic slot closing when capacity was reached.
- Implemented rescheduling, cancellation, payment workflow and automated email/SMS booking notifications.

### Book Review Application | Laravel 11

- Created authentication and book management features, then added AJAX review creation, editing and deletion. Used policies for permissions and included star ratings with summary calculations.

### Client Websites and CMS Work

- Delivered responsive websites using Bootstrap, JavaScript, jQuery, GSAP and WordPress/Elementor. Work included contact forms, custom themes and plugins, animation, image optimization and mobile fixes.

### Creative Engross | Bootstrap 5, GSAP and EmailJS

- Built a responsive bilingual website with rotating hero content, before-and-after comparisons, masonry portfolio filtering, video testimonials, contact forms and mobile fixes.

**Selected live websites:** [lijjat.com](http://lijjat.com) | [fivecrossarchitects.com](http://fivecrossarchitects.com) | [atyafalmajd.com](http://atyafalmajd.com) | [octanetworks.com](http://octanetworks.com) | [motiwalajewels.in](http://motiwalajewels.in) | [adoniaoffshore.com](http://adoniaoffshore.com) | [poonamshahart.com](http://poonamshahart.com) | [azeemdayani.com](http://azeemdayani.com)

## KEY ACHIEVEMENTS

---

- Integrated and maintained Stripe, Razorpay and PayU for live client systems, with webhook-based payment updates.
- Connected physical punching devices to an HRMS attendance module, reducing the need for manual reconciliation.
- Guided 2 interns through requirements, development tasks and implementation reviews.
- Received the Innovator of the Year recognition for GSAP animation work.

## EDUCATION

---

### Bachelor of Science in Information Technology (B.Sc. IT)

University of Mumbai | 2018 - 2021 | CGPA: 7.17 / 10

**Availability:** Based in Dubai on a visit visa and available to join immediately. Open to employer-sponsored roles and interviews at short notice.
